

Beaverbrooks Environmental Policy Statement

At Beaverbrooks, we want to be as sustainable as possible and continue to reduce our impact on the environment.

We are also fully committed to encouraging our people, customers and suppliers to do the same. Not only does this make commercial sense, but it is also integral to our core purpose as a business – to enrich lives.

Our policy is to:

- Minimise our waste through reduce, reuse and recycling as much as possible.
- Minimise energy and water usage in our buildings in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- Purchase products and services that do the least damage to the environment wherever possible, and encourage others to do the same.
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- Address complaints about any breach of our Environmental Policy promptly and to the satisfaction of all concerned.
- Update our Environmental Policy regularly in consultation with our people and our Waste Obligation Compliance Company.
- Wholly support and comply with the requirements of current environmental legislation and codes of practice.

Signed

Keith Drury
